How to Play Omaha Hi-Lo 8 or Better Poker

What is Omaha Hi-Lo 8 or Better Poker?

If you know how to 8 play pot-limit Omaha (or "Omaha high"), you are well on your way to learning how to play Omaha hi-lo.

As the 8 name suggests, Omaha hi-lo is a "split-pot" version of Omaha poker in which players compete for both the "high" and 8 "low" halves of the pot. Omaha hi-lo is usually played with fixed-limit betting and often turns up in "mixed game" 8 formats like H.O.R.S.E. (in which Omaha hi-lo is the "O") or the popular 8-game mix.

You will sometimes see the game 8 referred to simply as "Omaha 8" or even "O/8" or more elaborately as "Omaha hi-lo 8 or better." The name 8 gets styled differently, too, as "Omaha High-Low," "Omaha poker high-low" and so on.

Pot-limit and no-limit versions of Omaha hi-lo are 8 also popular, especially online either as cash games or tournaments.

Here we go over the poker rules for Omaha Hi-Lo 8 8 or Better.

How to Play Poker for Beginners Check out the rules and basic strategy to all the popular poker formats 8 Click Here

How to Play Omaha Hi-Lo Split-8-or-Better Poker

The basic rules for Omaha hi-lo are very similar to pot-limit Omaha. See 8 "How to Play Omaha Poker" for an overview of how to play Omaha poker, which is itself a variation on 8 regular Texas hold'em.

Just like in pot-limit Omaha, players are dealt four cards in Omaha hi-lo and are required to use 8 two of those four cards in combination with three community cards in order to make a five-card poker hand.

As in 8 hold'em or pot-limit Omaha, if a player bets and everyone folds before the showdown, the player wins the pot without 8 having to show a hand. However, if the final bet is called and there is a showdown, hands are examined 8 to see who has the best "high" hand and who has the best "low" hand, with each winning one-half of 8 the pot.

Omaha Hi-Lo Split-8-or-Better Rules

In Omaha hi-lo, the "high" hand is determined exactly the same way as in hold'em or 8 Omaha "high" games (like PLO), following traditional hand rankings.

The "low" hand requires a little more explanation, especially if you are 8 new to split-pot games or hi-lo poker.

First of all, whatever cards you use to make your high hand, that makes 8 no difference when making your low hand. You can use the same two cards, the other two cards, or any 8 combination just as long as you use two cards from your four-card hand plus three of the community cards to 8 build your five-card poker hand.

The rules of Omaha hi-lo is usually played with a "qualifier" for the low hand, meaning 8 all of the cards making up a low hand have to be ranked eight or lower. That's where the "split-8-or-better" 8 comes from, a phrase usually added to the name of the game.

A qualifying low hand consists of five unpaired cards 8 ranked eight or lower. For the low hand, the ace is considered a low card (the lowest), while it can 8 also serve as the highest-ranking card in high hands.

Also worth noting — if your lowest five cards make a straight 8 or a flush, that doesn't matter in Omaha hi-lo, you've still got a low hand (if all are ranked eight 8 or lower). In other "lowball" games like 2-7 no-limit triple draw, flushes and straights hurt you by making your low 8 hand higher, but in Omaha hi-lo that is not the case.

That means a hand consisting of 5-4-3-2-A would be the 8 lowest possible hand — that is to say, the best "low hand" in Omaha hi-lo. This hand is sometimes called 8 a "wheel." The next lowest possible hand is 6-4-3-2-A. The worst low hand that qualifies as a low in Omaha 8 hi-lo would be 8-7-6-5-4.

A good way to figure out which low hand is best is to arrange the hand from 8 highest card to lowest card and then to think of the hand as a five-digit number, with the lowest number 8 being the best (or lowest) hand. Thus 5-4-3-2-A (54321) is better than 6-4-3-2-A (64321), and 6-4-3-2-A is better than 6-5-3-2-A 8 (65321) and so on.

An Example of an Omaha Hi-Lo Split-8-or-Better Poker Hand

Let's say a hand of Omaha hi-lo goes to 8 showdown with the final board reading A63KQ.

You hold AK74, and your opponent has QJ42.

Your best possible high hand is two 8 pair, aces and kings — using the A and K in your hand pairing them with the ace and king 8 on board, with the queen being a kicker.

Your best possible low hand is 7-6-4-3-A — using the 7 and 4 8 in your hand along with the three low cards on the board. Note how you can't use the ace in 8 your hand when making your low hand, since you have to use exactly two cards in your hand and three 8 on the board (and there is an ace on the board).

Your opponent, meanwhile, has you beat both for the high 8 and the low!

Your opponent's best possible high hand is a flush — using the two diamonds in his hand (J 8 and 4) and the three diamonds on the board.

Your opponent's best possible low hand is 6-4-3-2-A — using the 4 8 and the 2 in his hand along with the three low cards on the board. 64321 is lower than 76431, 8 so your opponent has you beat.

Winning both halves of the pot like this is called a "scoop" or "scooping," which 8 is something you always want to try to do when playing split-pot or hi-lo poker games.

Sometimes in Omaha hi-lo there 8 is no qualifying low hand. This is the case whenever there are less than three unpaired cards ranked eight or 8 lower on the board.

For example, if the board is 9KA4J, there are only two cards ranked eight or lower on 8 the board (the ace and four), which means it is impossible for anyone to make a low hand. When that 8 happens, whoever has the best high hand scoops the whole pot.

Conclusion

Omaha hi-lo is not difficult to learn, especially if you 8 already know how to play pot-limit Omaha. The strategy can be complicated, though, with a great deal of importance placed 8 on understanding what are strong starting hands (e.g., hands containing an ace with at least one or two low cards, 8 especially a deuce) and not making the mistake of battling for only half of the pot (just the high or 8 low).
